

II Overview of the Survey Process

The Survey process is comprised of two main components: the facilities Inventory Validation component and the Needs Assessment component. The fieldwork portion of the process is carried out by a Survey Team, which is directed by the Survey Leader from one of the university's sister institutions. Other Survey Team Members include staff from the Board of Governors Office of Finance and Facilities and staff from other universities who serve in the planning and space inventory areas of their institutions. A Survey Facilitator is assigned by the subject university to facilitate logistics, collection of data for Inventory Validation, development of the Survey Workbook used by the Survey Team, coordination of university activities, and final preparation and publication of this document. Significant preparation is necessary before each of the two Survey components are carried out. Table 1 identifies the main Survey Activities and lead responsibilities for each activity.
